

### Features Master-Vac & Pro-Vac

Autonomously functioning cart with integrated oil-free compressor, silent suction system and fresh water tanks

High quality stainless steel housing

1 Three-way syringe (air/water/spray) with sterilizable tips

1 Saliva / surgical suction hose

1 High-performance suction hose 300 l/min

Continuously adjustable

Unique BPR Swiss technology

2 Fresh water tanks: 2 × 2 litres

2 Suction fluid containers: 2 × 2 litres (automatic overflow protection)

Integrated suction with amalgam separator

Integrated oil-free compressor: Max. operating pressure of 4 bar

### Features Master-Vac

1 High-performance suction hose 300 l/min with flexible cuspidor

### Technical Data

Operating pressure: 3.0–4.0 bar

Total weight PRO-VAC: 55 kg

Dimensions PRO-VAC: 355mm × 690mm × 895mm

Total weight MASTER-VAC: 60 kg

Dimensions MASTER-VAC: 355mm × 690mm × 895mm

Max. length of extended arm and cuspidor MASTER-VAC: 580mm

Warranty: 2 years

Options: Curing light

## Suction units Master-Vac & Pro-Vac

# Worldwide unique assistants

The mobile stand-alone suction units MASTER-VAC and PRO-VAC offer unique features worldwide. They work completely self-sufficient and only need to be connected to the power supply with a power plug.

**MASTER-VAC:** The elegant MASTER-VAC is the first fully stand-alone suction cart whose functionality surpasses even fixed units. The ceramic cuspidor, which is mounted on a movable arm, can be flexibly positioned under the patient's mouth. This makes rinsing the mouth easy for all patients, regardless of fitness, age or body size. During treatment, you as the dental professional will be assisted by a three-way syringe and an impressive suction capacity (300 l/min) that outperforms many fixed units. No costly installation work and still best comfort due to unique advantages.

**PRO-VAC:** The fully stand-alone suction cart PRO-VAC makes your work easier with a three-way syringe and an impressive suction capacity (300 l/min) that outperforms many fixed units. Its compact design helps the dental team to efficiently maintain optimal hygiene. The workflow in the dental clinic is made easier by the integrated amalgam separator. Maximum flexibility combined with highest performance and comfort.
